EXPERIENCE

ONE MONTH ON-JOB TRAINING:

- **Web Development Internship** Lifetech Software, Ranchi
- **Python with Machine Learning Training** Briztech Infosystem, Ranchi

PROJECTS

- **E-commerce**
Developed a fully functional e-commerce website using the MERN stack. The project involved user authentication, product catalog management, and a shopping cart feature.
- **Weather Application**
Created a weather app that provides real-time weather updates based on user location. Integrated with external APIs for accurate weather data and built with a responsive user interface.
